

### Blood draw information for the client

- The blood test application form contains your application data for the NIPT (non-invasive prenatal test)
- More information about the NIPT and the list of blood testing locations (bloedafnamelocaties) from the various registered blood testing organizations can be found on [www.peridos.nl/zoek-bloedafnameorganisatie](http://www.peridos.nl/zoek-bloedafnameorganisatie)
- Your obstetric care provider will ask you to choose a blood testing organization. Your choice will then be recorded. Should you later want to change your chosen organization, please contact your obstetric care provider
- You are free to choose any blood testing location from your selected blood testing organization
- A pre-appointment at the selected blood testing location is often required
- Do not forget to take the blood test application form and your proof of identification (passport or ID) to the blood testing location
- After successfully completing the application form, a confirmation of the application (bevestigingsmail) will be sent to the email address that you have provided. This email is only intended to confirm your application
- The blood test application form can be destroyed after use
- You will receive the results from your obstetric care provider within 10 days of the laboratory receiving the blood sample

### More information

- Please inform your obstetric care provider if you have any questions about the blood test, or if your personal information is incorrect.
- This document in English contains further details about screening for Down syndrome, Edwards' syndrome and Patau's syndrome: [www.pns.nl/documenten/information-about-prenatal-screening-for-down-syndrome-edwards-syndrome-and-pataus](http://www.pns.nl/documenten/information-about-prenatal-screening-for-down-syndrome-edwards-syndrome-and-pataus)

There are also versions available in Turkish, Arabic and Polish

- [Down, Edwards ve Patau sendromu tarama testi hakkında Bilgi](#) (Turks)
- [معلومات المجلد خلال عملية الفحص ، ادواردز ، إن باتاوسيندروم](#) (Arabisch)
- [Informacje dotyczące badań przesiewowych w kierunku](#) (Pools)
